

LOIRA+

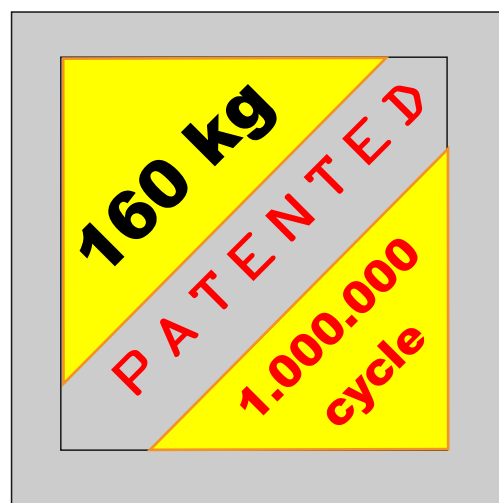

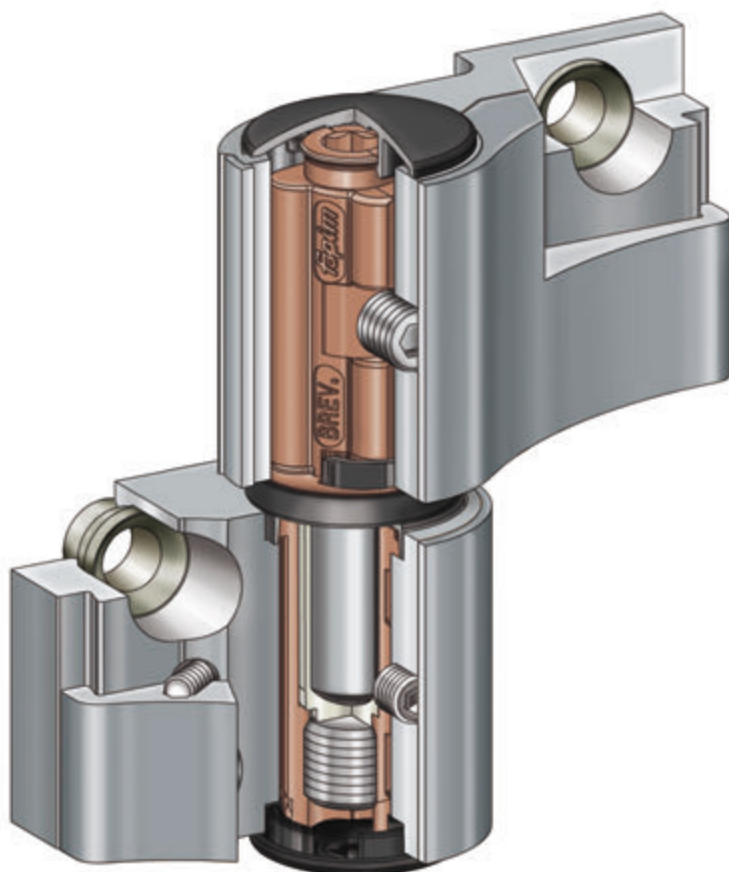

DOOR HINGE

Made in Italy

fapim[®]

Life in evolution

Loira+ is the new two leaf door hinge range totally renewed in design, with advanced know-how, with an increased ease of use, especially with regard to assembly and adjusting.

Loira+, manufactured from extruded aluminium profiles, and it is CE, EN 1935:02 and SKG anti-theft ENV 1627 certified.

Tested up to 160 Kg – 10.000.000 cycles

Body in extruded aluminium.

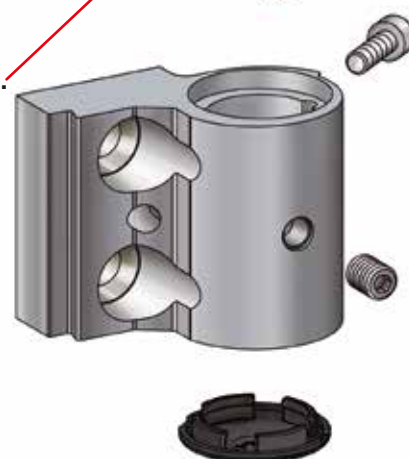

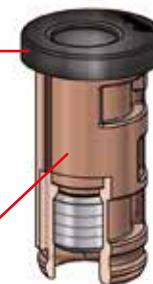

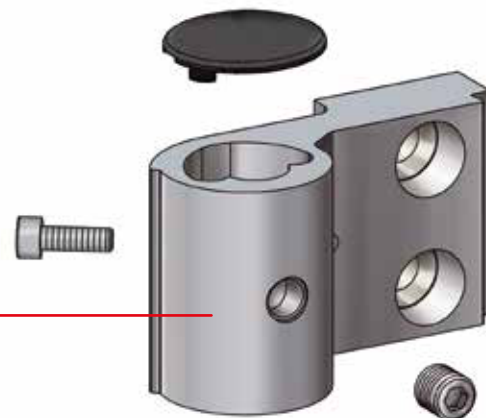

Stainless steel pin.

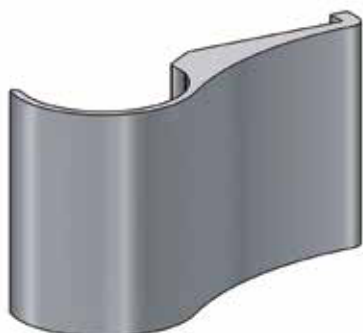

Anti-theft system.

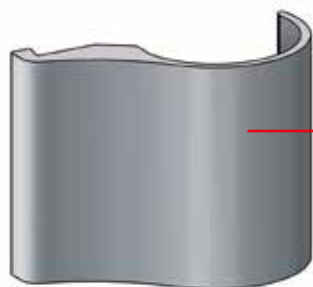

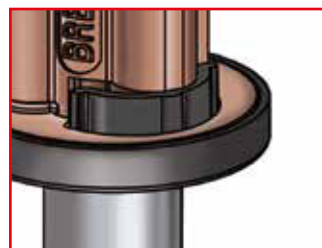

Bush in zamak, with Delrin anti-friction device.

Adjustment possible if the door is in the closed position.

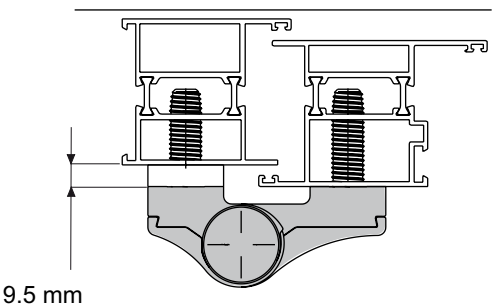

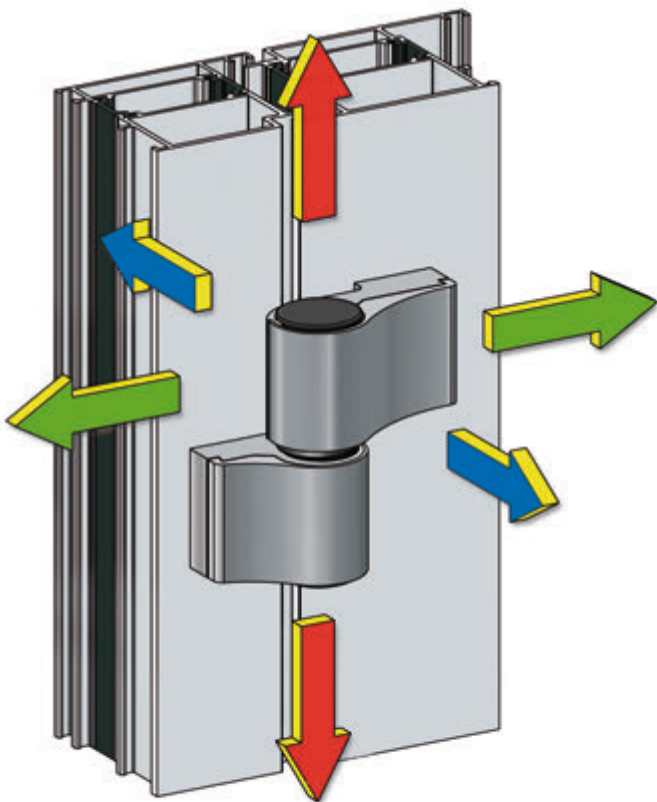

Pre-positioning device in nylon.

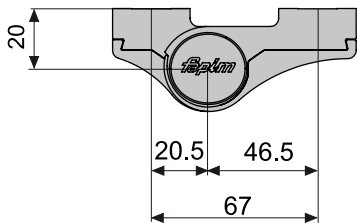

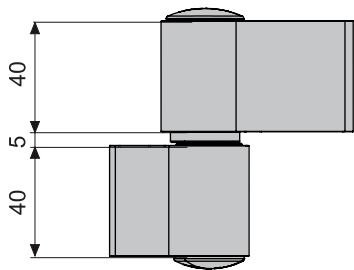

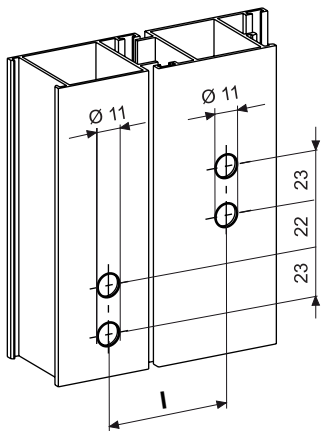

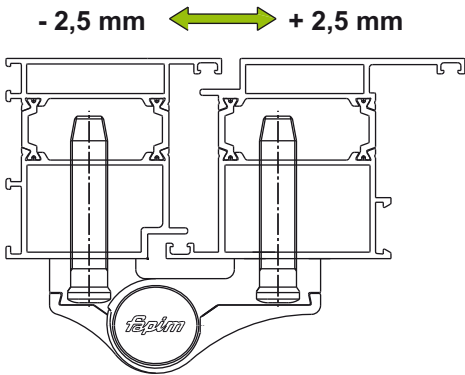

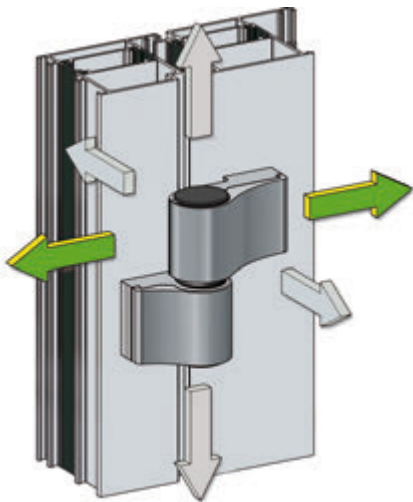

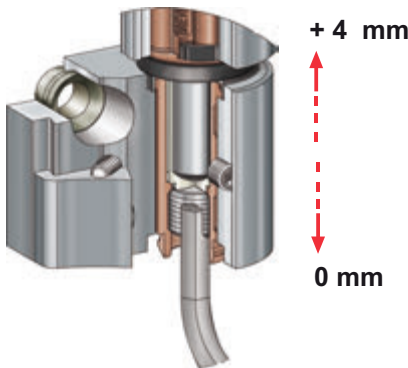

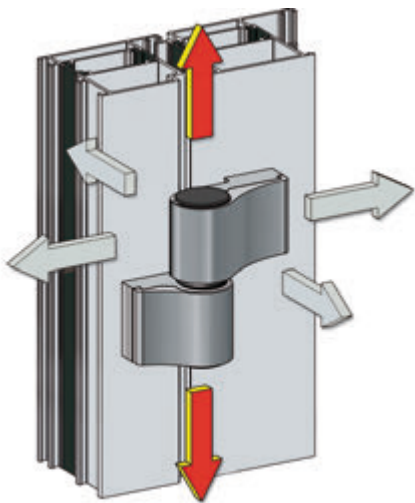

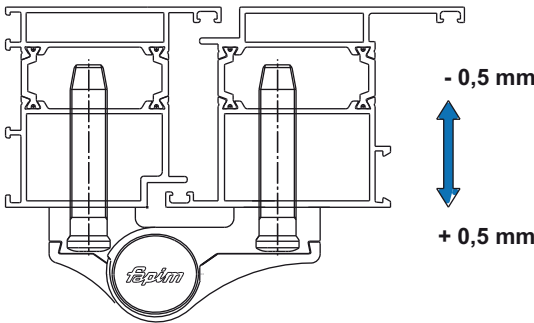

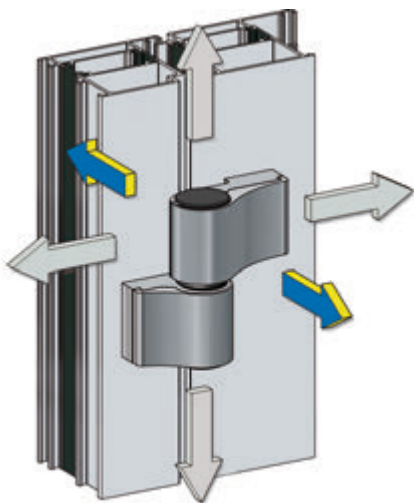

Cover plates in extruded aluminium.

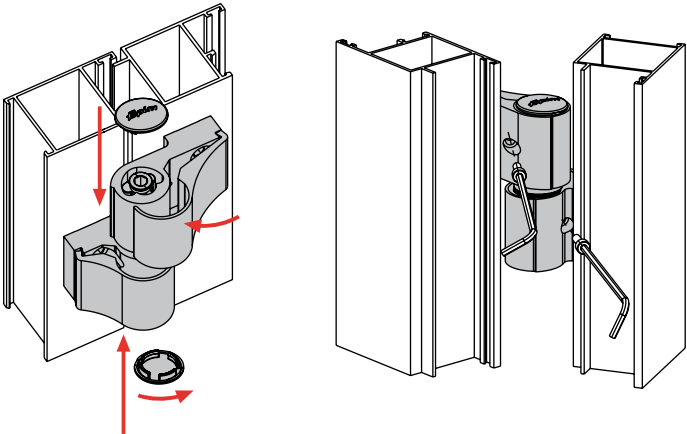

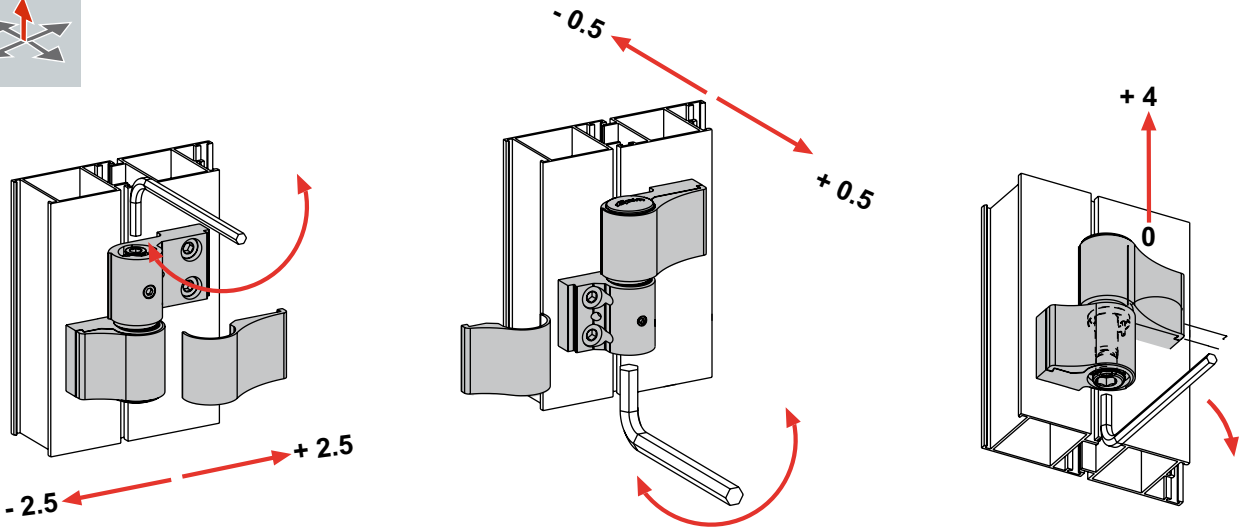

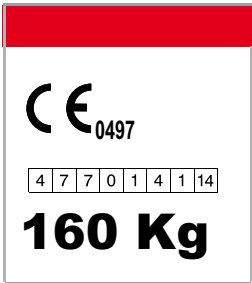

The Loira+ hinge in both two and three-leaf version, is adjustable in the three directions, when the door is in the closed position. Adjustments are micrometric and independent of one another.

A series of 20 horizontal lines for writing, spanning the width of the page.
